

St. Luke's by the Numbers 2024

Health System Overview

As the only Idaho-based, not-for-profit, community-owned and community-led health system, St. Luke's is dedicated to our mission to improve the health of people in the communities we serve in southern and central Idaho, eastern Oregon and northern Nevada. From our founding in 1902, to our establishment as a health system in 2006, to today, St. Luke's has long been a leader in quality care and a vital partner in addressing community health needs.

All numbers are current as of the fiscal year ending Sept. 30, 2024.

\$50 Million
Charity care

\$508.5 Million
Total under-reimbursed care

We're incredibly thankful to our community partners for the collaborations that make our programs and services meaningful and valuable for neighbors and visitors. We get farther in partnership than we could ever get by ourselves, and our team is proud of the results that these partnerships and relationships continue to reflect.

— **Chris Roth,**
President and CEO, St. Luke's
